

Dear St. Peter family:

Greetings of peace & joy! How are you friends doing? We pray you are continually receiving and experiencing the amazing grace of our master, Jesus Christ, deep, deep within yourselves.

It is the same grace that the Lord gives us daily that sustains us. We praise the Lord for our Mangyan students - they are resilience in all hardships they face and uses it to overcome. With courage & wisdom they face each challenges that comes their way....they are eager & willing to do hard work, that sometimes they surpass (in terms of grades in written & oral exam) they lowland classmates. We believe they each bring something unique into this world.

On Saturdays, we visit them in their villages to do bible studies for the little children & everyone who cares to listen. When our resources allows we give them snacks too. Of course those who stays with us in the dorm also have weekly bible studies and we encourage them to teach their brothers & sisters, mom & dad everything they learn but sometimes they are shy even at home & we have to show them & teach them how to share His word.

At home, July is always a joyful month. Danny had his 54th birthday on the 10th while Lily's 57th was on the 17th of the month. But even before July started, our youngest Marc graduated from university last 27th June....so we lift all our praises & glory to our living God who made all these possible. And we thank the Lord too for all your support & for standing by our

side.

Thank you dearest friends....all our love & prayers,

Danny & Lily
